Matriculation	Andhra Pradesh State Board	Ravindra Bharathi High School	2019	9.80

ACHIEVEMENTS

- Secured **2**nd prize in a **chess** competition among **20** participants.
- Secured an impressive **78%** in the All-India JEE entrance examination.

PROJECTS

PERSONAL PORTFOLIO WEBSITE   [Sept 2024 –Present]

- Designed a comprehensive personal portfolio website, spotlighting my projects, skills, and achievements. This digital showcase amplified my reach and garnered recognition among a broader audience.
- Utilized **HTML, CSS** to construct an engaging and responsive user interface, resulting in seamless interactions across diverse devices and screen sizes. This design overhaul increased user engagement by **25%**, fostering optimal accessibility.

User Management System Link   [Mar 2023 – Apr 2023]

- A web-based application using JSP, Servlets, JDBC, and MySQL to manage users with role-based access (Admin/User).
- Implemented features like user registration, login, role assignment, account activation/deactivation.
- Handled database operations, session management, and deployed using Apache Tomcat.

Flight Management System Link   [Feb 2025 – May 2025]

- Developed a dynamic Flight Management System with Admin and User panels using Java, JDBC, JSP, Servlets, and MySQL.
- User Panel: Implemented flight search, ticket booking, booking history, and user registration/login functionality.
- Admin Panel: Enabled admin to add/update/delete flights, view bookings, and manage system data.
- Ensured MVC architecture and proper session handling for secured access and efficient data management.

Online Examination Portal Link   [Nov 2024 – Feb 2025]

- Developed a web-based Online Examination System using Django, HTML, CSS, and SQLite, supporting Admin, Teacher, and Student roles with secure role-based access.
- Enabled features such as timed quizzes, question management, auto-grading, performance analytics, and teacher approval workflows.
- Ensured mobile compatibility, security via encryption and authentication, and scalability for educational institutions.

SOFTWARE SKILLS

- **Programming Languages:** Core Java
- **Web Development:** HTML, CSS, JSP, Servlets
- **Database:** SQL, JDBC
- Time managing skills, Good Team player, Adaptability
